

TkVest Narkosesamtykkeskjema

CONSENT FORM FOR DENTAL TREATMENT UNDER GENERAL ANAESTHESIA

TkVest Narkosesamtykkeskjema, , has been referred for necessary dental treatment under general anaesthesia. Once the general anaesthetic has been administered to you or your child, it will not be possible to consider and discuss different treatment options in consultation with you or your next of kin.

We always aim to preserve teeth, but in some cases it will be necessary, based on a medical assessment, to extract teeth.

We therefore need your/your parent's/guardian's consent to perform any dental treatment that proves to be medically necessary.

=====

I/we hereby consent to the dentist performing the necessary dental treatment.
